

# Pattern: Fractured Fin #518

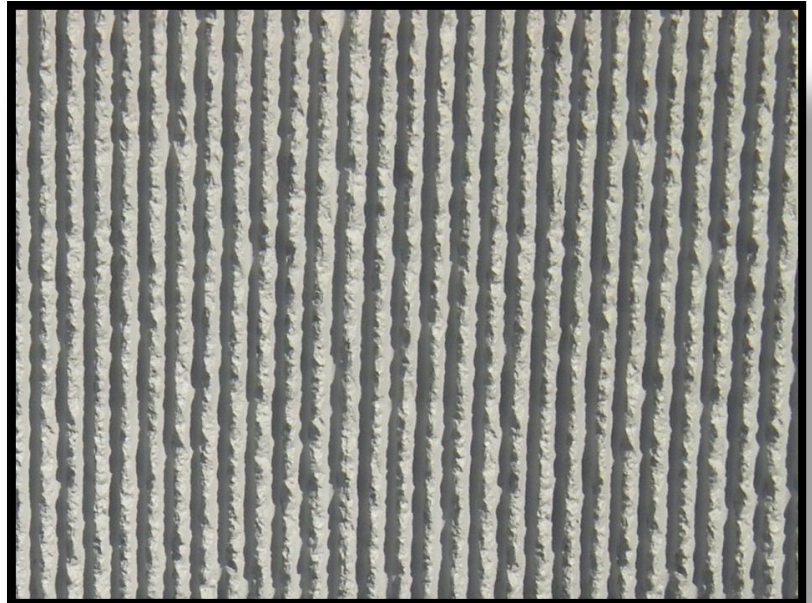

VERTI-CRETE FORMLINERS

## Key Features

Discreet and attractive, Fractured Fin is the perfect vertical texture to infuse sharp patterns and consistency. With the look of randomly broken ribs running top to bottom, the natural shadow from sunlight creates a high contrast pattern.

The ribbing of this texture contributes in diffusing sound and also makes for a poor canvas for even the most committed graffiti taggers. Fractured Fin is a perfect solution for a natural and dynamic aesthetic appearance.
